TO BE HELD IN SEPTEMBER

MEDICAL PROFESSION THROUGH-OUT COUNTRY INTERESTED.

One of the events to which the medical profession throughout the country is looking forward to is the international congress on tuberculosis, which is to be held in Washington next September. The secretary of the state board of health, Dr. T. B. Beatty, has received from the secretary general the announcement that a number of prizes are to be offered. The letter received here reads:

'Some of the factors of the tubercu losis problem that are most difficult of solution are brought prominently to the attention by the announcement made a few days ago of the prizes offered in connection with the International Congress on Tuberculosis to be held in Washington next September Naturally, the question of sanatoria is among the first that challenges consideration. Following the lead of the German authorities, the tendency in many sections of this country has been to erect and equip sanatoria for the treatment of incipient and hopeful cases, and the claims of the advanced cases have fallen most often on ears that were deaf to the appeal. The example set by England in providing for the unpromising cases has had a share in waking up others to their responsibilities; so it comes as a matter of course that one of the large prizes, a cash prize of \$1,000, is offered for the best exhibit of a sanatorium for advanced pulmonary cases, while another thousand-dollar prize will be awarded to the best exhibit of an existing sanatorium for the treatment of incipient cases. A third thousand dollars will be given to the dispensary, or kindred institution for the tuberculosis poor, which makes the best show-

It has taken a long time for civilized peoples to find out that the principal ground on which the battle against tuberculosis is fought is in the homes. It has been much easier to accept scientific discoveries than to face the every day fact that dirt, dampness, darkness, vice and privation are the strongest allies that tuberculosis has. The records of the visiting nurses, and the organization for the positive evidence needed on this score. And nothing is more significant of the world is beginning to exercise its gray matter on this phase of the problem than the offer of the \$1.000 prize for the strongest was allies that tuberculosis has. A great exhibition illustrative men who are heart and soul bound up in of what is being done around the the advancement and progress of our schools.

To our minds, it is idle to assert that individuals, non-residents of our community would manifest the same concern and anxiety for the advancement and welfare of our schools as would be exerted by residents of our own community, but in most cases they are parents of children who are receiving the benefits of our local school

Furthermore, it is evident that the interests and concerns of certain sections of our county, outside of school district No. 12, are such as would cause residents of such sections to refuse to impose upon themselves the necessary burden of taxation to keep the standard of schools upon a par with those now existing in Park City district, and in consequence of such influence we fear the proposed consolida-tion would have a deteriorating effect upon our schools, and in future depress the standard of our schools far below the high plane upon which they now stand. We are conscious of the fact that dis-Commissioners of Summit County, Utah. trict No. 12 is so situated that were same consolidated with other districts of Summit county, it would necessitate the erec-tion of a high school building, and if same were located outside of district No. 12, it would be extremely inconvenient to school children of Park City.

In conclusion, we desire to call your honorable board's attention to the fact that we of Park City are in a measure a homogeneous population, whose interests are to some extent different from the interests of other sections of Summit county, that we, as a community, are thor-oughly competent to manage our schools and keep them upon the lines of advancement and progress, which fact is mani-fested not only by the amount invested in our school buildings, but also evidenced by the high standing of our schools, admittedly second none in the state, and further emphasized by the achievements of our graduates, of whom we feel justly

We, therefore, earnestly entreat your honorable board to turn a deaf ear to the advocates of consolidation, and leave to us the management of our own school affairs, by permitting the Park City school district to continue as it is, under the management and guidance of the people who love it most, and who will serve it best, because their children are being We, therefore, insist that you do not despoil us of our birthrights by taking

The Smoot organization had controlled the politics of the state for several years. The result was a tremendous split in the party. The fight of the insurgents was for peace, and they were making it within the party. Without mentioning his name, Mr. Rideout described Harry Joseph and denounced his pernicious, meddling arrogance. "I stand for the statement," he concluded, "for every word of it. I would have had it made stronger if I could." When the vote on the proclamation was taken there was just one voice, the

At a meeting of the committee of fifteen held later a sub-committee of seven was appointed to wait upon the state committee at its meeting held in Salt Lake City the 6th day of April, 1908. The committee of seven request ed the state committee to make the call for the coming state convention broad enough to permit of a discussion of the causes which have divided the Republican party of this state, with the result that the state committee included within its call a provision for the free discussion of any question that might be considered of importance to the success or welfare of the Republican cause in Utah. In passing we call attention to the fact, that the Salt Lake county Republican committee at its meeting held in this city a week or so ago passed a resolution condemning the action of the committee of fifteen because it (the county committee) had been ignored and the appeal had been made direct to the state committee. The committee of fifteen consists of Republicans from various counties of the state, and the questions which it desired to have discussed before the state convention concerns every voter in the state of Utah, hence it is not a county affair, and it would appear almost unneces sary for us to say that the county Republican committee exceeded its jurisdiction and made itself ridiculous in the eyes of intelligent people when it took cognizance of the question
